

The Perkin-Elmer Corporation

Notice

January 5, 1955

To All Employees:

Subject: Changes Required by the Projector Project

The Corporation is about to undertake a large and complex activity called the Projector Project. It is felt that the most satisfactory manner in which this overall project can be accomplished is through the creation of a division of the Corporation to be known as the Projector Division. This division will monitor the activity and will supervise the SPO's covering the production and engineering work within the Corporation. The division will make direct use of the purchasing, accounting and legal functions of the Corporation.

The Corporation has appointed R. M. Scott the coordinator and Project Manager of this undertaking. He has been given temporary leave of absence from the duties of Director of Engineering to fill this new position.

[redacted] has been appointed Acting Director of Engineering, and
[redacted] Assistant Director for the duration of this new activity.
